

ZARGES

The new LiftMaster 4.3 U

Get up to a working height of
4.3 m in no time.

www.zarges.com

Mobile, safe and easy to use – no electricity required.

Thanks to its lightweight design and smooth-rolling castors, the new ZARGES **LiftMaster 4.3 U** can be moved effortlessly from point A to B. It also folds down to a compact size measuring 120 x 165 x 74 cm and fits easily into any small van. Work safely at heights – wherever and whenever you need to.

The highlight: No batteries or power supply are required at the place of use. The lift can be adjusted to the desired working height by turning the handle. Very little manual force is required to operate the lifting mechanism.

Get the job done quickly.

Operating a lift has never been so easy: The **LiftMaster 4.3 U** does not require any electricity or batteries; simply turn the handle to elevate the lift to the desired working height. Thanks to its innovative, yet simple design, it is always ready for use and requires very little maintenance.

The **LiftMaster 4.3 U** also excels in terms of its sturdy construction and exceptional safety features. Unlike with ladders, the user is already protected inside the lift even before adjusting the platform height. An all-round guardrail protects the user from start to finish – thus giving the user peace of mind to concentrate fully on their work.

Easy to move

Comfortable entry

Platform height of 0.46 m... up to max. 2.30 m

Fits through doorways.

Always ready for use – it can be operated without electricity or batteries thanks to the hand crank.
